DSCA Policy Memo 09-60

We have customers who are interested in actively participating in FMS acquisitions, but **believe they are being summarily shut out of the process**. I request that you encourage each of your acquisition communities to take up the spirit of DFARS 225.7304 and **actively seek opportunities for customer participation** in DoD acquisitions for FMS.

DSCA Director

FMS Customer Participation

OUSD AT&L DPAP Memo, 21 July 2011

The FMS program is... an instrument of US foreign policy... to deter and defend against aggression, facilitate common defense and strengthen the security of the US.

Many FMS customers have voiced interest in **actively participating** in FMS acquisitions. I ask that **you seek opportunities** to enhance FMS customer involvement in your acquisition programs in order to foster better understanding, strengthen alliances, provide transparency, and build customer confidence and teamwork.

Richard Ginman
Director - DPAP

Conclusion

- Contracting for FMS is more than just buying stuff
- FMS leverages DoD's acquisition infrastructure to:
 - Promote strategic relationships
 - Achieve national security (DoD) and foreign policy (DoS) objectives
 - Provide enabling capabilities to partners for the common defense
- FMS value does not begin at physical delivery, it includes the procurement process itself
- Contracting Officers are essential enablers to successful FMS program development, execution and closure

In other words...

**It is not just the
destination (i.e., physical
delivery), but also the
journey that matters.**
